

## 230-M2000 Handheld Barometer

NovaLynx 230-M2000 is a portable pressure instrument with flexible features to meet many of your everyday pressure measurement needs. This device features an easy and intuitive user interface with convenient pressure connections.

- Easy to use and highly accurate
- One fixed sensor, optional tethered sensor
- 316SS media isolated pressure sensor
- Measurement range 30 psi absolute
- "Snapshot" hold function, mobile data logging
- Protective red boot
- NIST certificate included
- UL listed, CE compliant

Pressure Accuracy	± 0.020% Full Scale + 0.005% of Reading	
Pressure Range	0 to 30 psi Absolute	
Measurement Units	psi, kPa, mmHg, inH <sub>2</sub> O, mbar	
Display Resolution	Up to 6 digits depending on pressure unit selected	
Temperature Specifications	Storage:	-20 °C to 70 °C (-4 °F to 158 °F)
	Operating:	-10 °C to 50 °C (14 °F to 122 °F)
Dimensions with boot	Length:	9.8 in (248.9 mm) from manifold to end of boot
	Width:	5.2 in (132.1 mm) at widest point with boot
	Thickness:	2.3 in (58.4 mm)
Connections	1/8" Female NPT 316SS USB Port for Optional Tethered Sensor, with cable USB, with cable	
Power	4 AA batteries	
Weight / Shipping	1.8 lbs (0.8 kg) / 3 lbs (1.4 kg)	

### Ordering Information

230-M2000 Handheld Barometer  
Includes NIST certificate, USB cable and cable for optional external sensor, and batteries
