

## CAPABILITY STATEMENT

NovaLynx Corporation is a manufacturer and distributor of professional quality weather monitoring instruments and systems including a complete line of tipping bucket rain gauges, standard rain gauges, anemometers and wind vanes, Class A evaporation pans and evaporation gauges, and modular weather stations. We distribute sensors and systems ranging from traditional manual instruments to modern electronic data acquisition technologies. We strive to provide cost-effective solutions for meteorological applications and to support these solutions with expert technical staff.

### Sensors

Barometric Pressure  
Evaporation  
Rain and Snow  
Solar Radiation  
Temperature and Humidity  
Upper Air  
Visibility  
Water Level and Flow  
Water Quality  
Wind Speed & Direction

### Weather Stations

Modular and Custom

### Data Acquisition

Data Loggers and Signal Conditioning  
Enclosures and Power Supplies  
Towers and Lightning Protection
